At a press conference on Wednesday, Abdul Haseeb Sediqi, spokesman for the National Directorate of Security (NDS), said that the NDS will fully support inventors and scientists in Afghanistan and better provide for their security as well.

"The main purpose of the center is to pave the ground for researchers and scientists to implement their programs in the

technical and scientific support to the inventors and researchers working in the country.

"The NDS has major concerns about the security of the researchers and scientists of the country, hence the NDS will take the responsibility for providing security to these personalities."

The researchers and scientists of Afghanistan will be working alongside the assistance of the NDS in their future plans and works.
